By the time they return, most of the village women will be waiting for them on the river bank. They wait to buy the fish, which they will later sell at the local market or bring to the nearby town for a higher price. The children will be there, too. We love running around and waiting for the boats to come in.

Our most important festival of the year is the Chol Chnam Thmay, which celebrates the New Year. It falls in mid-April. Every family tries to prepare well for the festive activities. The community also visits and helps poor families so that everybody has a happy New Year.

USA Today explains this works partly through the power of distraction: When we're focusing on a favorite album, we may not notice that we just ran an extra mile.

If you are feeling down or depressed, music can be a perfect cure. Studies show that music helps put people in a better mood and gets them in touch with their feelings. Study participants rated "arousal and mood regulation" and "self-awareness" as the two most important benefits of listening to music.

Whether you realized it or not, listening to your favorite songs while walking to class, coming from work, or right before bed provides your mind and body with much more than the enjoyment of the songs; it also has several health benefits to go along with it. So keep on listening! Music is a vital part of human life.

- A. It increases endurance.
B. It listens to top workout tracks.
C. It is explained by USA Today.

B. Because of the power of a favorite album.
C. Because of the power of mood regulation.
D. Because of the power of enjoyment.

33. What are the two most important benefits of listening to music rated by study participants?
