I was born in Ha Noi, the capital of Viet Nam. Ha Noi is famous for its natural beauty, with lots of rivers and lakes. There are many historical places to visit in Ha Noi. The Literature Temple (Van Mieu – Quoc Tu Giam) is the country's first ever historical university. Teenagers often come here to **pray for** high results in their upcoming examinations. As Viet Nam is a Buddhism-oriented nation, its capital has also been the centre of Buddhism for centuries. In Ha Noi alone, there are about six hundred temples and pagodas. It also has a big church in the city centre, a popular place for the few Christians living here. With a population of nearly eight million, the city is quite crowded. **Read the passage, and choose the correct answer A, B, C or D for each question.**

In the Mekong Delta, Long Dinh village of Tien Giang province is famous for its traditional craft of weaving flowered mats. The mat's high quality makes them popular domestically, and they are also exported to markets worldwide including Korea, Japan and America.

In spite of its well-established reputation for this traditional craft, mat weaving only started here some 50 years ago. It was first introduced by immigrants from Kim Son, a famous mat weaving village in the northern province of Ninh Binh. However, the technique of weaving sedge mats in Long Dinh, as compared with other places in the South, is somewhat different. Long Dinh branded mats are thicker and have more attractive colours and patterns.

Weaving sedge mats is similar to growing rice. Long Dinh mat production mainly occurs during the dry season, from January to April. Weavers have to work their hardest in May and June, otherwise, when the rainy season starts in July, they will have to put off finishing their products till the next dry season. No matter how much work it requires, Long Dinh mat producers stick with this occupation, as it brings a higher income than growing rice.

This trade provides employment for thousands of local labourers. At present, nearly 1,000 households in Long Dinh village live on weaving mats. To better meet market demands, Long Dinh mat weavers have created more products in addition to the traditional sedge mats. Particularly, they are producing a new type of mat made from the dried stalks of water hyacinth, a common material in the Mekong Delta.

Thanks to the planning and further investment, the mat weaving occupation has indeed brought in more income for local residents. Their living standards have improved considerably, resulting in better conditions for the whole village.
