Read the passage and then answer the questions that follow.

My village was never a big village, nor was it particularly successful or well-known. It was a place where simple people worked on their land, tending citrus groves and running poultry farms. The most exotic plantation grew avocados, and a palm tree nursery was something of an attraction.

The village was established by a group of Greek immigrants in 1937 in what was then known as British-controlled Palestine. When we first moved here, one could still hear some Greek in the street, the local store sold original Greek delicacies and from time to time we were invited to sit on a neighbor's porch and share some ouzo at the end of a working day.

In the last few years, my village has changed dramatically. Very few people work in agriculture now; they can no longer support their families growing oranges and chickens. As a result, they must find their income outside the village and rent out their land or sell their little family farms altogether. Some of the land is still used for agriculture, but no longer for the family farms. Now it is the agriculture of luxuries.

34. What can best describe the change of the village recently?

- A. The change is very fast.
- B. The change is very slow.
- C. The change is normal.

35. How do the villagers earn their living now?

- A. They grow oranges and chicken.

- C. They work in the outside villages.
- D. They hire out their land and sell their farms.

Dear Minh,

I'm very pleased to write this letter to you. The first term is coming to an end soon and my school is going to have some days off. On this occasion, my class is visiting some caves near Hanoi as we have recently studied rock formations. Besides, many of us have never been inside a cave, so I suppose the trip will be very interesting. At first, we wanted to travel to Thay Pagoda because it is only over 20 kilometers away, and we could go on a day excursion. However, only today have we learnt that the caves near Thay Pagoda are closed until after Tet. So we are visiting the ones near Huong Pagoda instead. A night camping fire on a two day trip will be a great event in our school days! To make the trip cheap, we are bringing our own food and sharing buses with some other classes. It is much warmer

now. I believe we are going to enjoy good weather with lots of sunshine. The only problem I seem to have is getting my parents' permission. They may not want to let me stay the night away from home. I'll try to persuade them. That's all for now. Give my love to your parents and sister.

Yours,

Lan.

The Most Convenient Way to Shop

Do you do a lot of online shopping? For millions of people, it is a wonderful way to purchase the things they want without having to leave their homes.

Online shopping is not very old. The first online shopping company was created in 1991. However, the idea of shopping from home has existed for a very long time. Many years ago, people shopped with mail-order catalogues. A catalogue is a very thin magazine that is full of advertisements, and then they mailed their order back to the company. A few weeks later, their product arrived. Because people ordered their products through the mail, **they** were called "mail-order" catalogues. After that, shopping television shows became popular. These TV shows introduced products to people watching at home. People who wanted to buy something called the company and placed the order. This is called home shopping.

Now we have online shopping. Online shoppers go online and look at web sites. When they find something they want, they place an order with the web site. They usually pay with a credit card or with virtual currency.

Online shopping is changing shopping. Millions of people buy things online every day. The biggest effect of online shopping is on stores. As more people buy things online, more stores are **shutting down**. After all, why should you go to a store if you can buy things from home?

The main advantage of online shopping is convenience. You can buy almost anything from anywhere in the world, and a week later the product will be in your house. Also, other customers write **reviews** of products. You can read these reviews and decide whether or not you want to buy the product.
